

EARTH DAY ASSEMBLY

“We have proven that together, we can tackle monumental challenges. And the right to a healthy environment is gaining traction. But we need to do much more. And much faster. Especially to avert climate catastrophe.” – Antonio Guterres, Secretary-General of the United Nations

With this thought in the mind, Suncity School, celebrated Earth Day on Thursday, 21st April 2022, with an assembly and a plethora of engaging activities for students, to spread the message of saving our mother Earth.

A Special Assembly was presented by the students of Grade IV A with a medley of educational and dance performances. The assembly began with the News covering all important national, international and Sports News; also the Weather forecast. The ‘Thought for the day’ enriched the students’ knowledge.

This assembly was a small tribute to Mother Earth and a call to introspect on how humanity has been polluting the planet. We have been poor custodians of our fragile home and the reckless use of its natural resources has led it to the brink of a crisis. The Assembly reminded everyone that we need to shift to a more sustainable lifestyle, for the betterment of their human race and above all to save our only home -The Planet Earth. It also highlighted the United Nations Sustainable Development Goal 13 - **Climate Action**.

A short skit - The journey of Mother Earth from 1905 to 2022, was intended to be an awakening call for all. The Earth song, gave a clear message that growing trees will be helpful in saving our planet. Mime, a beautiful dance performance by the students explained how our life is getting affected because of the carelessness of humans. It was indeed a day of introspection, wherein our children learnt about their responsibility towards nature. The Assembly concluded with a Pledge to save our mother Earth and lastly the National Anthem was sung.
